Product Highlights

Inspection

Every Turbo brought into the facility is completely disassembled and closely inspected for wear.

Recovery

All parts designated for recovery are brought back to OEM specification.

High Quality Materials

All wearable components are replaced with new and meet strict metallurgical criteria designed for durability and strength.

Precision Machining

OEM machining tolerances are upheld with precise accuracy measured in microns, or 0.001 millimeters.

High-Speed Balancing

All shafts, wheels, and assemblies are balanced to OEM specification on high-speed balancers.

Hot Gas Stand Testing

Air pressure, flow, and temperatures are verified to match OEM performance and efficiency.

Top Movers - DD13, DD15, & DD16
