COMPLETE ENGINE

Complete engines remanufactured to the specifications of the original power unit, putting your customer back on the road with maximum confidence. This is the ultimate turn-key solution for engine repairs.

THREE QUARTER ENGINE

Three Quarter engines offer more flexibility in the repair, while assuring your customer with OEM tested units that will provide service for the long-haul. Just add electronic controls, manifolds, fuel pumps and fuel lines to complete the job.

LONG BLOCK PLUS

Our Long Block Plus has years of service under its belt for warranty repairs. We now offer these units for all repairs, giving you increased flexibility to offer customized repair options to your customers. Rocker arms, injectors and EGR cooler are added at the time of service.

LONG BLOCK BASIC

Take advantage of maximum repair flexibility and value. Components that are still in good shape from the customer takeout can be added to the Long Block Basic to complete the repair. Units include the basics, all remanufactured and quality checked using OEM specifications: block, crankshaft, cylinder kits and cylinder head.
